Deck machine D-1500

Easy to adjust, open for various deck sizes.

One operator

manage the D-1500

Feed the magazines with deck boards and stringer boards.

The hydraulic operation puts the boards in nailing position. By using beam nailing system D-1500 will nail the decks together with a capacity of twenty (20) boards per minute.

D-1500 is a reliable machine, for production of pallet decks. Reliable construction, for continuously use.

Professional precision combined with the easy way to handle and adjust to a new deck size.
